

Mission

A Practical and Elegant Alternative for Churches Cremation Technologies, Inc. is a company that is dedicated to manufacturing cutting-edge columbarium products and delivering superior service to the benefit of churches and families that need cost-effective and reliable niche and urn alternatives. Infinity Memorial Systems® products are specifically designed to meet the needs of churches and their members. Columbarium walls, niches and urns are manufactured to exacting standards and are warranted for 50 years - an unparalleled term in the industry. Our columbarium manufacturing company sells through distributors only and demands the greatest levels of professionalism and ethics from companies that represent Infinity Memorial Systems®. Distributors must be able to assist churches with every aspect of designing, planning, installing, operating and promoting their columbaria. As more and more churches choose to place columbaria on their properties, Infinity Memorial Systems® will continue to provide products and services that allow them serve the needs of members and operate their programs with peace-of-mind. All Infinity Memorial Systems® products will enable churches to meet the challenges of our ever changing times.
