A church columbarium is more than just a building project. Providing a final resting place and memorialization for church members involves planning and management of a comprehensive ministry that enhances the spiritual life of an entire congregation. Infinity Memorial Systems® has designed cremation niche products and support services that can help make your columbarium successful now and in the future.

Whether your church needs assistance with financial issues, operations management, limited space, planning for expansion, or member services, your IMS consultant is trained and experienced at making your columbarium ministry a success.

Contact us to have your local IMS consultant provide you with a free, no-obligation analysis that will help you determine how a columbarium ministry can be implemented at your church - perhaps even sooner than you might have thought possible!
