

## Church Ministries

The Infinity Columbarium Development Program™ includes a range of tools to ensure that designs, locations, policies and operational procedures meet church objectives and members' needs from the day that planning begins. The program helps churches determine all aspects of installing a columbarium so that short-term objectives are met and long-term issues are addressed. Comprehensive Planning for Long-Term Success

Your Infinity Memorial Systems™ representative will assist you with reviewing the Columbarium Development Analysis™ and provide you with the materials you need to implement the action items adopted by your columbarium committee. Whether you require example documents, templates, printed materials or consultation, your representative has the tools and experience to help you determine which resources are appropriate for reaching your goals. Funding Through Advance Promotion

Depending on the choices you make regarding funding, advance promotion may play a defining role in your columbarium's design and size. Central to the development of your columbarium is the Your Legacy, Your Church™ program that promotes sales to members wishing to reserve preferred niche locations. The Your Legacy, Your Church™ program includes printed materials and other tools that help you quickly establish and promote your columbarium even before niches are installed. Your Legacy, Your Church™ includes the following tools and resources:

- conceptual drawings
- brochures, flyers and posters
- updated information on the columbarium directory web site
- reservation forms
- example announcements and letters

• special promotions

Creating a Ministry - Not Just a Structure! With Infinity Memorial Systems™ specially designed niches and our comprehensive programming and planning assistance, your death care ministry will flourish. Most of our church customers sell enough niches prior to installation to pay for their entire columbarium before it is installed. This allows the church to more quickly develop the ministry so that it is providing complete "birth-to-death" spiritual guidance to its members, including:

- Pre-need planning
- Financial planning
- Grief counseling
- Family guidance

Clearly, Infinity Memorial Systems™ is dedicated to helping churches achieve all that they can through their columbarium ministries for the long-term. That is why all of our distributors are trained and qualified columbarium consultants and why we warranty our products for 50 years!
